**November 23, 2009**

Dear Sir/Madam,

Greetings from Rural Development Administration of Korea!

RDA is a government organization responsible for research and development of agricultural technology, extension service, education and welfare improvement in agricultural sector.

Our research institute, which has known you well, recommended you as RDA Honorary Scientist and Scientific Advisor on Agricultural Green Technology. Its tenure is 3 year and the reappointment is possible. Though it is unpaid title, we will provide the appropriate convenience for your cooperative work with our research institutes. We will send you the Certificate of Appointment separately.

We, at RDA, would like to extend our gratitude for your acceptance of the appointment. I wish the partnership between you and RDA will continue to grow in the years to come.

Sincerely yours,

**Jae-Soo Kim**
